

Company Profile

SAPERION knows that information is crucial to a company's success: For more than 20 years, the company located in Berlin has developed superior software for the purpose of capturing, storing, processing and preparing corporate information.

Medium-sized companies such as Fleurop or debitel as well as globally operating corporations such as DaimlerChrysler, Deutsche Bank, Lufthansa, E.ON or Vodafone rely on Enterprise Content Management, Business Process Management, Workflow and Archiving made in Berlin for accelerating their processes and increasing corporate efficiency.

These companies appreciate the features provided by SAPERION: very good ability to integrate, nearly unlimited scalability, highest functionality on a stable platform and excellent information provision at distributed sites. In addition to its headquarter in Berlin, SAPERION AG has six competence centers distributed throughout Germany. Moreover, it shows excellent international presence with its subsidiaries in the UK, North America, Switzerland and Singapore.
